

Press Release

Nošovice-based Hyundai to Award Over CZK 1,000,000 through the Together 2025 Grant Program

- Applicant interest in the 10th edition of HMMC's grant program reached record levels again, with a total of 156 applications submitted
- The Nošovice car manufacturer will support regional athletes, children, people with disabilities, and community projects

Nošovice, May 9, 2025 – Thanks to the *Together 2025* grant program, organizers of sports and community events across the region can look forward to contributions of up to CZK 25,000. The grants will also support activities for children and organizations focused on helping people with disabilities.

The *Together* grant program is one of the pillars of the automaker's corporate social responsibility. Interest in the grants was high once again this year, with a record 156 applications received – 24 more than last year. The successful applicants were selected by a nine-member evaluation committee made up of representatives from the company and regional organizations. A total amount of CZK 1,002,896 will be awarded to 46 successful applicants.

"Each year we see an increase in the number of applications, which makes us very happy. Compared to 2022, we received 52 more applications this year. Most of the projects are submitted by our employees, who are often directly involved in them. However, individuals and organizations are also eligible to apply. I'm pleased that every year we're able to support so many skilled and active people in the Moravian-Silesian Region who devote their time to helping others," said Barbora Hermanová, Head of the Public Relations Department at HMMC.

The *Together 2025* grant program is divided into four categories. The category *Together in Sports* received the most funding – a total of CZK 458,100, supporting 19 applications. The second most supported category was *Together for Children*, with CZK 286,802 awarded to 14 projects. The *Together for the Community* category will receive CZK 155,749 to support 7 projects. The fewest applications were submitted in the *Together Without Barriers* category, where the company will provide CZK 102,245 to support 6 projects.

The maximum amount applicants could request was CZK 25,000. The funding will be used for example for educational and wellness stays for people with disabilities, organizing educational

events for children, supporting local sports competitions, or purchasing equipment for sports clubs. The program results are available on the HMMC website: www.hyundai-motor.cz/en/grant-program/

Hyundai Motor Manufacturing Czech (HMMC)

The high-capacity HMMC plant launched production in Nošovice in November 2008. The Tucson model has consistently accounted for the largest share of production, representing approximately 70% of the plant's total output. Other models include the Hyundai i30 and Kona Electric. Since operations began, more than 4.8 million vehicles have rolled off the production lines, destined for customers in over 70 countries around the world.
